

How to create your wallet with Trust Wallet.

Step 1. To download and install your new Trust Wallet, head to [trustwallet.com](https://trustwallet.com) and chose the relevant download link for your device.

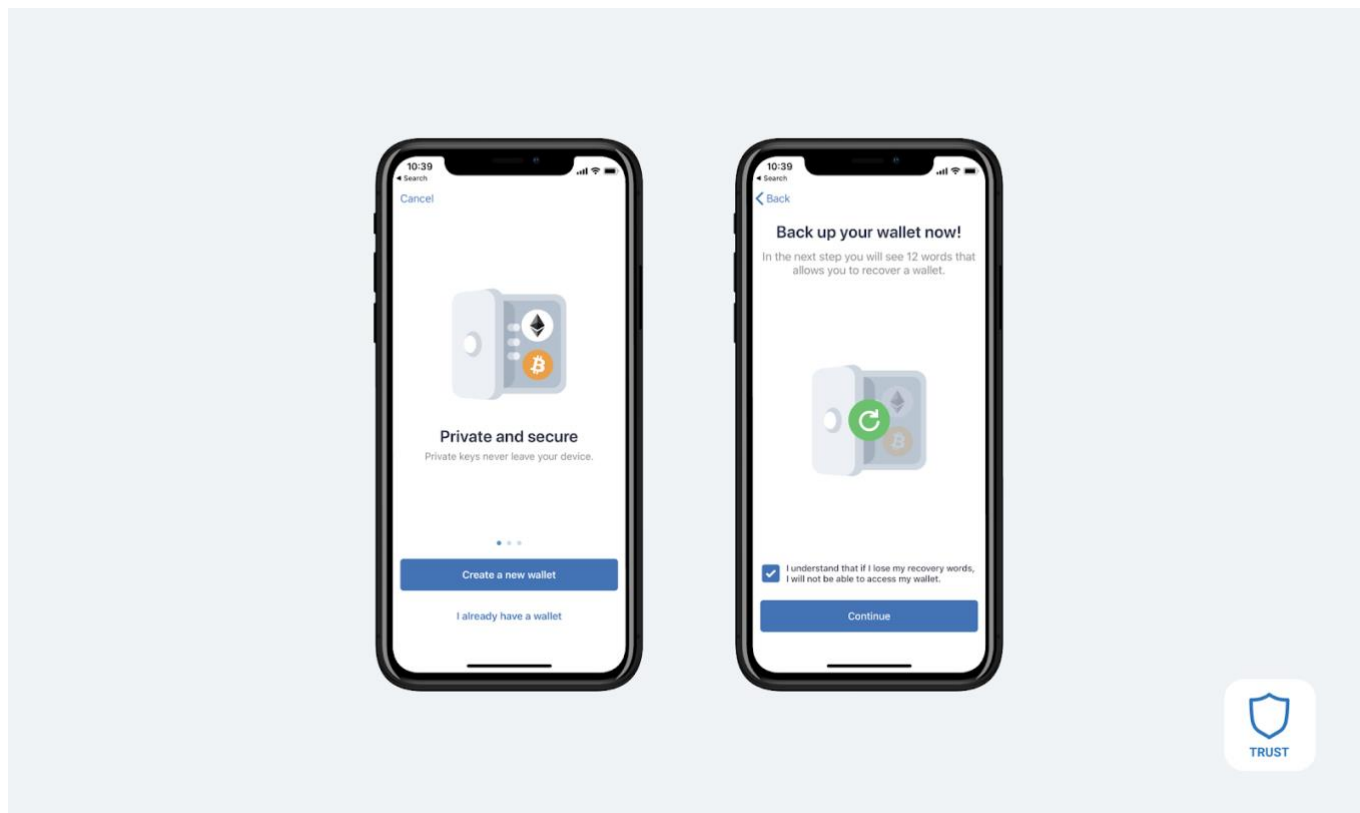

The image shows a promotional banner for Trust Wallet. At the top, there is a navigation bar with the Trust Wallet logo and links for 'Wallet', 'Browser', 'Assets', 'Blog', and 'Reviews'. Social media icons for Telegram, Twitter, Facebook, and YouTube are also present. The main text reads 'Secure Multi Coin Wallet for Android and iOS'. Below this, three download buttons are highlighted with a red border: 'Download on the App Store', 'GET IT ON Google Play', and 'DOWNLOAD APK Android'. On the right side, a smartphone displays the Trust Wallet app interface, showing a total balance of 2,506 USD and a list of assets including Bitcoin, Ethereum, Binance Coin, Litecoin, DASH, XRP, and Tron.

Asset	Balance	Value (USD)	Change (%)
Bitcoin	1,00531 BTC	3,600.16 USD	+0.64%
Ethereum	1,0934 ETH	129 USD	+4.93%
Binance Coin	20,8341 BNB	15 USD	+7.33%
Litecoin	11,243 LTC	31.33 USD	+172%
DASH	16,58 DASH	72.60 USD	-2.09%
XRP	20 XRP	0.31 USD	+3.02%
Tron	325 TRX	0.026 USD	+2.74%

**Step 2.** Once you have downloaded and installed the app, open Trust Wallet and tap on "Create a new wallet".

In the next step you will receive your 12 word seed phrase, which acts as a backup for your funds.

**IMPORTANT:** There is no way to change or recover your 12 word seed phrase if it's lost or forgotten. If you lose your phrase you will lose access to your funds with it, so please ensure you make a note of it (not online) and keep it in a safe place. The phrase is essentially your PIN number so keeping it noted down in a safe and secure place is vital.

Trust Wallet is completely different from traditional bank accounts.

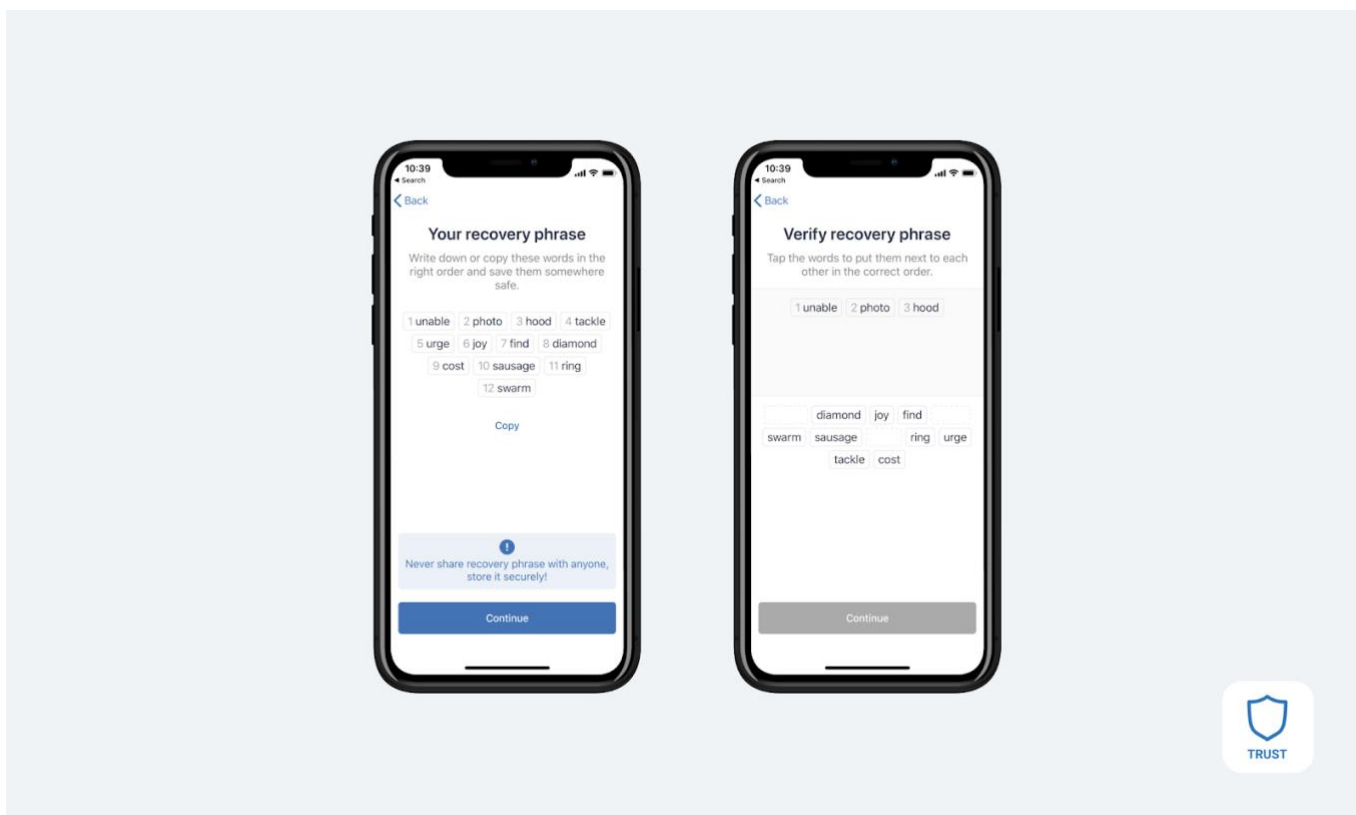

You are the true owner of your "Money", Trust Wallet can never access your coins.

It is technically not possible for us to recover wallets if you lose your seed phrase as we do not have access to it.

\*Only your 12 word seed phrase can be used to restore access to your wallet.

**Step 3.** Before you finish the step of creating the wallet, verify that you wrote down the 12 word phrase in the correct order. Do not take a screenshot, it's not safe to store your recovery phrase in your camera roll. It should be written down and stored in a safe place.

**IMPORTANT:** It is strongly recommended to do your backup now and store it somewhere safe!

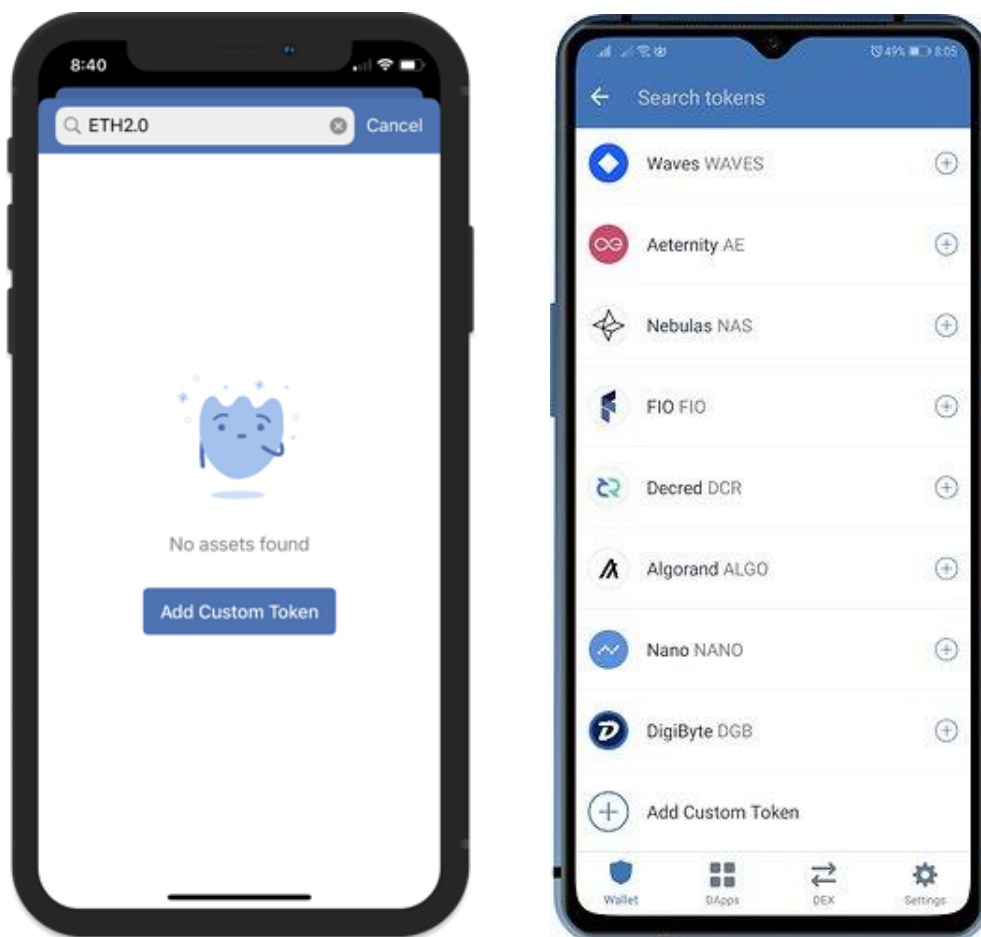

And that's it, your wallet is successfully created!

You now need to add a Custom Token to receive your EVAI Tokens.

## Step 4. Access Search Token Screen.

Tap on the toggle sign on the upper right corner of the Wallet Screen. Search for the token, and if the token is not available, you will get a “No Asset Found” screen with the **Add Custom Token** button.

For Android devices, you can scroll down to the bottom of the list of available tokens and you will see the option **+ Add Custom Token**.

## Step 5. Custom Token Information.

To access Custom Token Information, click on the link below or enter the Etherscan Custom Token Address in your browser:

<https://etherscan.io/token/0x50f09629d0afdf40398a3f317cc676ca9132055c>

The screenshot shows the Etherscan interface for the token EVAI.IO. The top navigation bar includes the Etherscan logo, a search bar, and menu items like Home, Blockchain, Tokens, Resources, and More. The token's name and symbol are displayed at the top left. Below this, there are buttons for Buy, Exchange, Earn, and Gaming. A sponsored banner is visible. The main content is divided into two panels: Overview and Profile Summary. The Overview panel shows the price as \$0.00, a market cap of \$0.00, and a maximum total supply of 1,000,000,000 EVAI. The Profile Summary panel shows the contract address, 8 decimals, and social profiles.

Overview [ERC-20]	
PRICE	FULLY DILUTED MARKET CAP
\$0.00 @ 0.000000 Eth	\$0.00
Max Total Supply:	1,000,000,000 EVAI
Holders:	1
Transfers:	1

Profile Summary [Edit]	
Contract:	0x50f09629d0afdf40398a3f317cc676ca9132055c
Decimals:	8
Social Profiles:	Not Available, Update ?

### Important:

Take note of the Token Name, Symbol, Contract Address and Decimal.

### Tip:

How to get the QR code of the token?

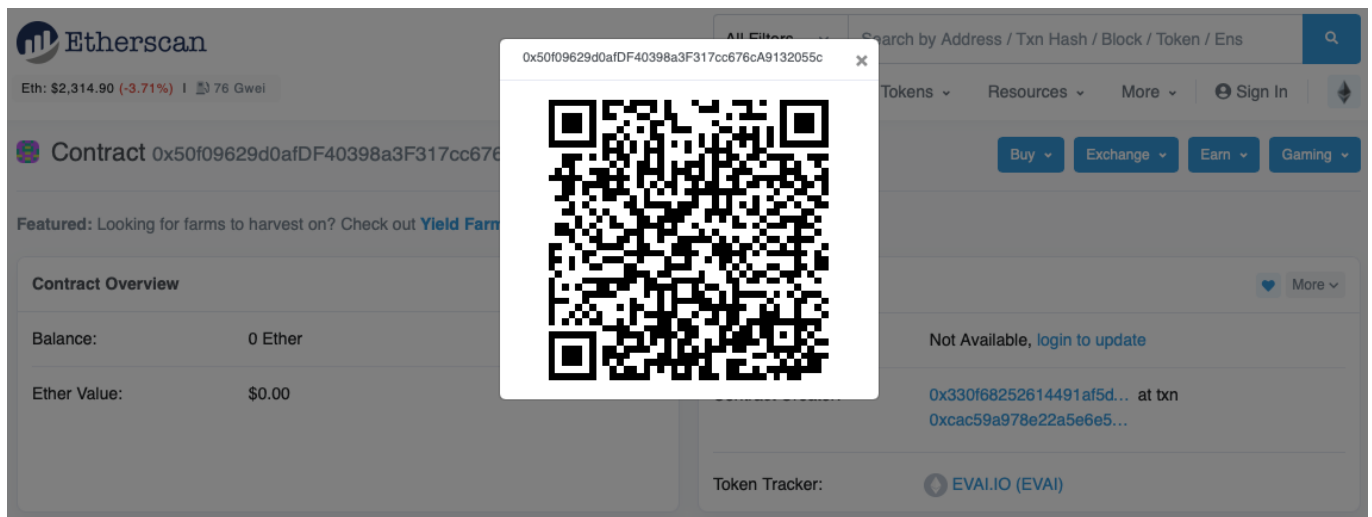

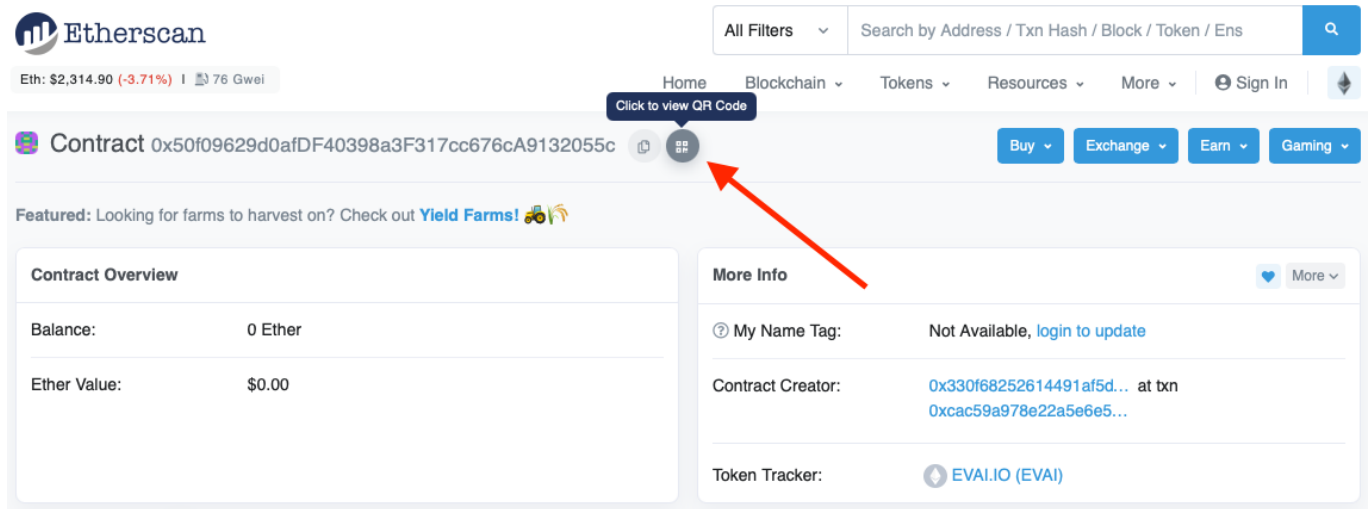

Tap on the "Contract" address under "Profile Summary" to get to the Token Tracker page.

This screenshot is identical to the one above, but with a red arrow pointing to the contract address in the Profile Summary section.

Profile Summary [Edit]	
Contract:	0x50f09629d0afdf40398a3f317cc676ca9132055c
Decimals:	8
Social Profiles:	Not Available, Update ?

On the upper left you can see the Contract address. Click on the QR Code button to view the QR code details.

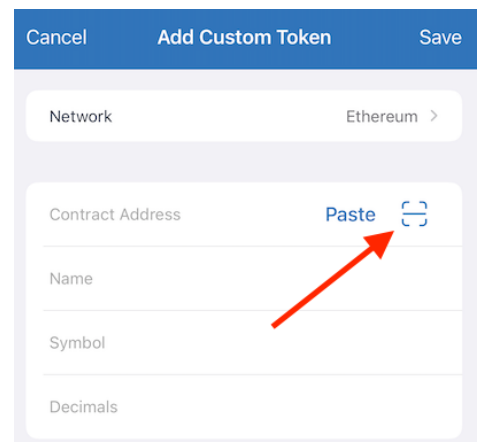

On your phone click on the QR Code scanner icon next to paste and scan the QR Code and the details will be populated. Tap on **SAVE**.

0x50f09629d0afdf40398a3f317cc676ca9132055c

Name: EVAI.IO

Symbol: EVAI

United Arab Emirates | United Kingdom | Singapore

## Step 6. Token Successfully Added.

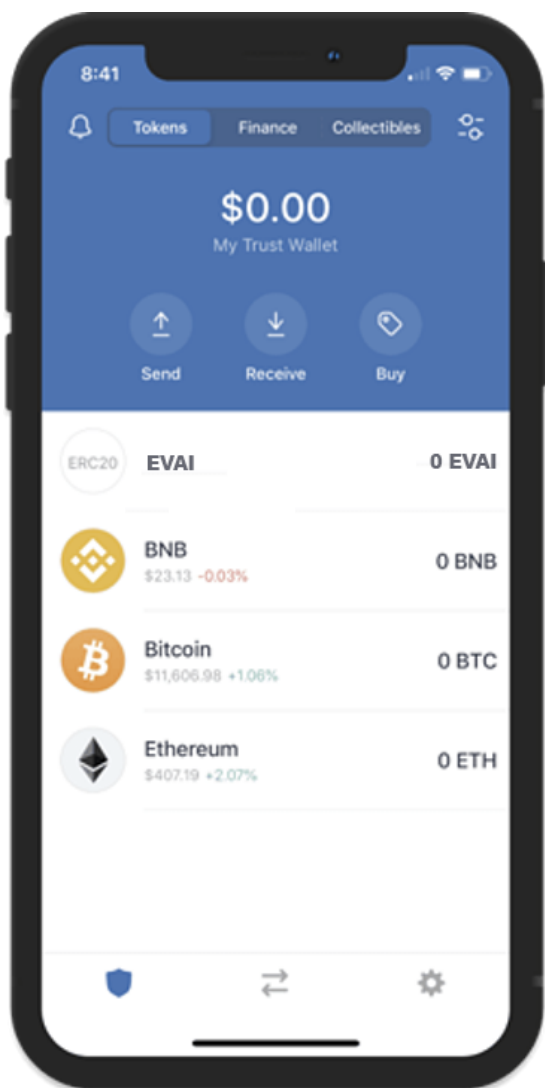

On the main wallet screen, the EVAI token will now appear. Since this is still a new token, the logo as well as the price will not be available. The token has to be trading first and listed on CoinMarketCap before the price can be properly displayed on the App.

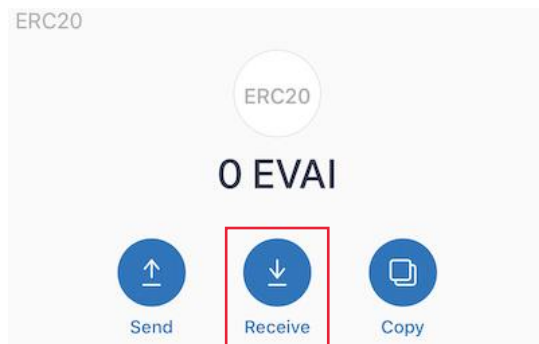

Step 7. Send your EVAI.IO address to us.

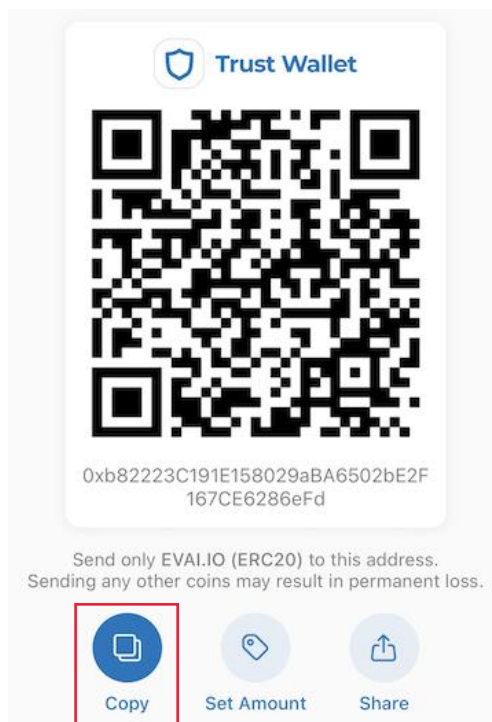

Click on the new EVAI Token in your wallet.

Click on Receive.

Click on Copy.

Now paste your wallet address into an email addressed to [token@evai.io](mailto:token@evai.io) and send it along with your full name.

Congratulations! Your new Trust Wallet is now setup and you are ready to receive EVAI Tokens!

Welcome to the evolution and thank you from the Evai Team!
